REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1-11 recite a circuit for reducing power during a standby mode of a memory device and claims 12-38 recite a memory device, an electronic system and an integrated circuit die having the circuit for reducing power during a standby mode.

The prior art does not teach or suggest the circuit for reducing power during a standby mode having a switching device including at least first and second switching inputs respectively coupled to at least first and second reference signals and a switching output configured to toggle from outputting the first reference signal to outputting the second reference signal during a standby mode; and a first regulator coupled and responsive to the switching output of the switching device, the first regulator configured to output a first internal operational power derived from an external operational power as regulated by one of the first and second reference signals.

Therefore, the application is in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Huan Hoang whose telephone number is (571) 272-1779. The examiner can normally be reached on Mon-Fri 8:30AM-5:00PM.
